

DUDLEY PRIVATE HOSPITAL - THEATRE, RECOVERY AND HYDROTHERAPY POOL

Dudley Private Hospital, Marsh Street, Orange

VALUE: \$5M DURATION: Mar '14 – Oct '14 CLIENT: Ramsay Health Care

PROJECT OVERVIEW:

Fugen Constructions was once again engaged by Australia's largest and most respected operator of private hospitals, Ramsay Health Care to refurbish Dudley Private Hospital's existing operating theatre, add two new operating theatres and provide an extension allowing for a stage 3 recovery ward. The nurses station, staff kitchen and amenities were also upgraded. Additionally, Fugen constructed a new 58m² hydrotherapy pool to accompany the existing rehabilitation gym that Fugen had constructed two years previously.

CHALLENGES:

The project was completed over three stages. All works had to be completed while the hospital maintained full, daily

operations with minimal disruptions and 100% safety to staff.

SOLUTION:

This journey was one where there was constant communication at all levels between Fugen and hospital management through to hospital staff throughout the delivery process.

OVERALL OUTCOME:

Fugen's previous health care experience, specialist pool constructions and familiarity of working within fully functioning hospitals translated into a project that was successfully delivered on time and on budget. Fugen won a 2014 MBA Award in the Health buildings category for the project.

WINNER OF
36 MBA Excellence
in Construction
Awards
